

Accessing your results

In order for results to be accessed remotely, students will need to use their Grace Academy email address. This will be in the format ac01001234@graceacademy.org.uk

It may have been a while since this has been used, so please contact the ICT Helpdesk via email on help@gas-ict.on.spiceworks.com, if unable to remember it or unable to gain access.

An email will be sent with a unique results link to the Grace Academy Email. Please check that this link works correctly **before** Results Day. If logged in successfully, a holding page can be seen, an example is given below. The layout may look different on other devices.

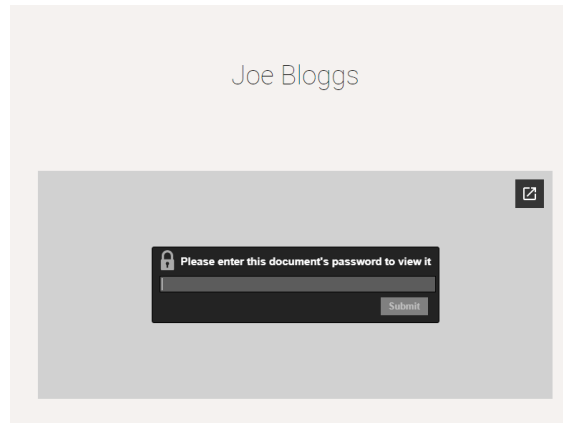

If you get a **404-error code**, then try changing the Google account being used to the Grace email account or contact the helpdesk for support.

Note on a phone or tablet you may need to tap on the pdf file to access the document.

The screen above will be confirmation that your results can be accessed successfully. Please ensure your password does not expire, contact the ICT-helpdesk help@gas-ict.on.spiceworks.com should this need to be changed.

Week of Results

In the week of results the site may be removed to allow for results to be prepared. You may get an error saying it is unpublished. On results day itself, the site will be uploaded with the results. Your personal invitation will be replaced with your results.

You will have received a specific password for this on your results day letter. This should be typed into the box and click Submit. You should now see your results, these will be available from 9am on 12th August.
